Career Objective

I am a passionate and dedicated individual aiming to build a successful career in the field of web development. My goal is to continuously improve my skills, contribute to innovative projects, and become a full-stack developer capable of delivering impactful digital solutions.

Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+), SQL
- **Frontend:** React.js, Tailwind CSS, DaisyUI, Framer Motion, React Icons
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Firebase
- **Tools & Platforms:** Git, GitHub, Vercel, Firebase Hosting, MongoDB Atlas

Projects

Rentizo - Car Rental Web Application
A full-stack car rental platform where users can explore, book, and manage vehicle rentals.
- **Live:** rentizo.web.app
- **Github:** Rentizo

Key Feature:
- User authentication using Firebase and JWT (Google & Email/Password)
- Browse available cars and book rentals
- Personal dashboard for managing bookings (edit/cancel)
- Users can leave feedback on rentals

Roomivio - Roommate Finder Web Application
A platform to find compatible roommates and manage rental listings.
- **Live:** roomivio.web.app
- **Github:** roomivio

Key Feature:
- Secure login system with Firebase and JWT (JSON Web Token)
- Create, update, and delete room/roommate listings
- Filter and Search listings by budget, area, etc
- Featured posts and ability to bookmark preferred listings

Education

B. Sc (Honours) in Mathematics at Dhaka College (Affiliated with University of Dhaka)
- 2021 - Present

Language

Fluent in Bangla, Use to With English and Hindi
